2010 PUBLIC MEETING AGENDAS

The enclosed Board Agendas are for public informational purposes only and are not to be construed as the official documents of record, nor is their inclusion intended to fulfill official posting and/or notification requirements. The official Agendas are posted at locations within the Marion County Courthouse to meet legal notification requirements. Any questions in regard to the Supervisor Agendas should be directed to the Marion County Auditor office, the official Secretary to the Board.

While every effort has been made to meet high standards of timeliness in making these Agendas available in this format, the Marion County Board of Supervisors make no express or implied guarantee that the Agendas will be available on this web site prior to the meeting date.

V.  PUBLIC HEARINGS - Open ______________

1.) Marion County Board of Supervisors – Zoning - Notice of public hearing for proposed changes to the Marion County Subdivision Ordinance Chapter 56. The highlights are as follows (for a full ordinance see the Marion County Zoning Office):

• The new Code establishes the Zoning Administrator as the point source for all land divisions.
• The new code clarifies that all parcels shall be considered as “ag use only” unless specifically designated as “buildable” on the plat of survey, subdivision plat, or by the Zoning Administrator. No building permits for any dwellings or other principal use shall be issued on lots, tracts or parcels not designated as a buildable”. Building permits for accessory structures customary to farm operations, such as machine sheds or corn cribs, may be issued provided they are not habitable and met all other zoning requirements.
• A Plat of Subdivision” shall be required when a 40-acre aliquot tract or parcel of land is subdivided into five or more lots or parcels, irrespective of ownership or whether such land division occurs consecutively or sequentially, unless specifically required by the Code of Iowa. A Plat of Subdivision” will also be required for any subdivision that includes a private street.
• Plats of Survey shall be approved by the Zoning Administrator and shall be in accordance with design standards that are defined by Code. If owner wants to appeal the decision of the Zoning Administrator, the applicant may submit the Plat of Survey to the Zoning Commission for their recommendation and then the Board of Supervisors for their approval or denial.
• All new streets within subdivisions shall be considered private, unless the street is accepted by the Board of Supervisors, upon recommendation from the County Engineer. In no case shall a street be accepted as a public improvement unless it is constructed to Marion County standard specifications.
At the time of Preliminary Plat approval, the Zoning Commission may waive certain requirements for private streets including curb and gutter, paving, street lights, and/or sidewalks.

Common water supply systems and wastewater disposal systems shall be required for lots less than 3.0 acres net in size and for multiple-family dwellings, row houses, mobile home parks, commercial uses or industrial uses unless specifically waived by the Marion County Environmental Health Department.

Access drives shall be limited to no more than 4 per quarter-mile, but the new Code clarifies that field drives shall not be counted toward this maximum limitation.

The procedure that property owners must use for various types of land divisions has been revised to clarify the process for applicants as well as to provide a list of all necessary documentation needed for recording purposes.

The new Code includes other minor changes to the current ordinance, such as fee amounts being set by a Fee Schedule rather than by Ordinance, and clarifications.

V. PUBLIC HEARINGS - Open ______________________

1.) Board of Supervisors - Notice is hereby given a public hearing will be held by the Marion County Board of Supervisors for the purpose of considering a proposed Ordinance amending Chapter 55 (Zoning Ordinance) of the Marion County Code of Ordinances. A summary of the proposed zoning changes are as follow:

• Reorganization of the Ordinance, grouping Agricultural, Residential, Commercial, and Industrial and District regulations in their own Section to simplify administration and reduce redundancy.
• Increasing the minimum lot size from 1.5 acres gross to 3.0 acres net in the A-1 district to address environmental and density concerns in the agricultural district while promoting ag land preservation by clustering homes but yet continuing to allow limited rural development.
• Limiting density in the A-1 district to 4 dwelling units per 40-acre aliquot tract (¼ ¼ Section).
• Addition of an R-R Rural Residential District to accommodate rural subdivisions, requiring developers to rezone their property if the subdivision exceeds 4 d.u./40-acre tract. The minimum lot size is 3.0 acres, the same as in A-1, but the density limitation has been lifted. R-R districts may be dispersed throughout agricultural areas without amending the Comprehensive Land Use Plan prior to rezoning.
• Allows existing 1.5-acre lots that have already been recorded to be used for building purposes, provided they have at least 40’ of frontage or if they have a recorded 20’ wide private ingress/egress easement as per the current Code.
• Requiring lots used for building purposes to have at least 40’ of street frontage. Parcels used only for agricultural purposes may have access via a 20’ wide ingress/egress easement.
• Eliminating the Planned Unit Development District regulations since that district is unused and applies to developments with higher densities that are urban in character.
• Addition of a Section permitting small wind energy conversion systems (100 kw max) to be installed, provided specific criteria are met.
• Addition of Overlay Zoning Districts so that the Floodplain and Airport Height Limitation Zones may be shown on the Zoning Map alerting property owners and citizens to the additional regulations already established on affected parcels.
• Restrictions to permitted uses are clearly spelled out immediately following each table of principal permitted uses.
• The requirements for Supplemental Use Permits can all be found in together in one Section.
• Clarification that issuance of a Building Permit does not include inspection services as well as clearly stating that it is the property owner’s responsibility to verify, or cause to be verified, that the location of all buildings and fences meet all required setbacks.
• Addition of a definition for exotic animals and the requirement of a Special Use permit for wildlife preserves.
• Grouping of the sign regulations for all districts together into one Section.
• Provides the Zoning Administrator certain remedies in the case of zoning violations including issuance of a stop-work order, prohibition of additional Building Permits from being issued until violations are abated, and allowing Marion County the ability to take remedial action where the violation represents an immediate threat.
• Minor clarifications to the current ordinance, including fee amounts being set by a Fee Schedule rather than by Ordinance.
• Other minor changes as discussed with the Zoning Commission.
